

Welcome Aboard: Introducing Shailesh Patankar, Our New Lead Data Engineer

We are excited to announce that Shailesh Patankar has joined Triple i as our Lead Data Engineer! With a deep background in data engineering and operational technology, Shailesh joins us to deliver innovative solutions to our customers.

Shailesh brings a wealth of knowledge and hands-on experience in Information and Operational Technology, spanning key areas such as control systems integration, manufacturing intelligence, and data-driven decision-making. At Triple i, he will focus on designing and delivering information based customer-centric solutions, mentoring our team, and strengthening our technical capabilities to meet evolving industry needs.

His career journey showcases a strong alignment with his new role at Triple i, including significant experience in:

- Control Systems Integration (CSI)
- Enterprise Manufacturing Intelligence (EMI)
- Manufacturing Execution Systems (MES)
- Data Science and Analytics
- Project and Program Management

This experience, combined with his roles at well-known industry leaders, demonstrates Shailesh's strong fit for the Lead Data Engineer position. Notably, his long career has included significant contributions in roles such as:

- 2010-2020: Program Manager, Data Scientist, and more at Tata Consultancy Services, handling EMI solutions, MES projects, and IT/OT integration.
- 2009-2010: Lead Control Systems & Instrumentation Solution Expert at Honeywell Process Solutions, where he developed a practical understanding of industrial automation and controls.
- 2007-2009: Operations Manager and Business Development Manager at FluidIQs India Pvt. Limited, focusing on instrumentation and control.
- 2006-2007: Solution Architect and Lead Proposals Engineer at Emerson Process Management Group, specializing in Emerson DeltaV systems.

As Shailesh steps into his new role at Triple i, we are eager to see the value he'll bring to our customers and team alike. His drive to deliver effective solutions is perfectly matched to what we do here at Triple i.

Please join us in welcoming Shailesh! We look forward to the contributions he'll make and to connecting with him in person.
